

CERTIFICATION OF VISUAL, THOROUGH EXAMINATION & MAGNETIC PARTICLE INSPECTION

Client:	HALLIBURTON (HPS)	Report No:	QC/24/HALL-HPS-FEB-002																																																																									
Location:	HPS YARD	Job Number:	QC-24/HALL-HPS-007																																																																									
Date:	Thursday, May 23, 2024	Next Inspection Date:	Friday, November 22, 2024																																																																									
Type Of Inspection:	VISUAL , THOROUGH EXAMINATION & MAGNETIC PARTICLE INSPECTION																																																																											
		UNIT DESCRIPTION:	DEVICE SPOOLING COIL TUBING																																																																									
		UNIT S/N:	11406124																																																																									
		REEL WITHOUT TUBING WEIGHT:	19,000 lb (8,620 kg)																																																																									
		MAXIMUM GROSS LIFT WEIGHT:	125,000 lb (56,700 kg)																																																																									
		INSPECTION RESULT :																																																																										
		VISUAL , THOROUGH EXAMINATION	unit fully inspected and found free from deforms, cracks, corrosion & mechanical damage																																																																									
		MAGNETIC PARTICLE INSPECTION	Welds & forgn areas inspected and found free from cracks and other defects																																																																									
		FINAL RESULTS	unit found satisfactory and free of defects at the time of inspection																																																																									
		COMMENT:																																																																										
		Magnetic Particle Inspection With A/C Hand Yoke , Black & White Contrast
