

WITNESSING PRESSURE TEST Certificate

Client:	SLB BASRA (Testing Services)	Report No:	QC-SLB-25184-01	
Work Location:	North Rumaila Base-Basra-Iraq	Date Of Inspection:	10/Jul/2025	
Reference:	ASTM E B31.1 Manufacture Recommended – SLB Procedure	Next Inspection Date:	09/Jul/2026	

Equipment Description:	<u>TEXSTEAM PUMP</u>		
722312-01-001	<u>DRIVEN INJECTORS</u> - Visual inspection for outside and inside surface leak - Witnessing Pressure Test		

Hydro test: Test applied by SLB and found no drops or leaks during test period.

TEST PRESSURE:	Buildup to 7000PSI	MAXIMUM WORKING PRESSURE:	10000 PSI
-----------------------	--------------------	----------------------------------	-----------

Test Methods	Non-Destructive Test	Pressure Test
	UT W/T Meter	Pressure recorder
Equipment used:	----	820954
Calibration Date	----	Due date –02/Feb/2026
Applicable procedure	----	WI/CT/0090

REMARKS/RECOMMENDATION: Pressure Test Against Valve for 5 Minutes

RESULT THE ABOVE ITEM WAS TESTED AND FOUND TO BE ACCEPTED AT TIME OF TEST

SUPERVISOR	M-TAREK	Inspection Engineer:	Rami Salama
