| COMMENT:Magnetic Particle Inspection With A/C Hand Yoke , Black Ink & White Contrast | Out side diameter (OD) | 2 1/16 10K | 7-7/8"  | Thickness (TH) | 2 1/16 10K |
|                                                                                      |                        | 1502       |         |                | 1-3/4"     |
| 1/8" Min Raised Face (RF) On Flanges With BX-Groove                                  | Inside diameter (ID)   | 2 1/16 10K | 2 1/16" |                | 1502       |
|                                                                                      |                        | 1502       |         |                |            |

**INSPECTION RESULT**

|                                      |          |                                                                                                                                             |
|--------------------------------------|----------|---------------------------------------------------------------------------------------------------------------------------------------------|
| <b>VISUAL , THOROUGH EXAMINATION</b> | Accepted | Flange Fully Inspected and found free from Deforms, Cracks, Corrosion & Mechanical Damage                                                   |
| <b>MAGNETIC PARTICLE INSPECTION</b>  | Accepted | Magnetic particle inspection was carried out on all available critical areas for the above description and found free from surface defects. |
| <b>FINAL RESULTS</b>                 | Accepted | The unit found satisfactory and free of defects at the time of inspection                                                                   |
